Risk Factors - People	What could go wrong?	What would cause it to go wrong?	How could we prevent it from going wrong?	Whose responsibility, is it?	When/where will it be done?	Emergency plan
Medical problem or illness <ul style="list-style-type: none"> Pre-existing conditions Unknown Allergies, stings, sulphur 	<ul style="list-style-type: none"> Unknown medical condition arises Allergic reaction happens, no history Lack of knowledge about student or supervisors' medical conditions Tetanus shot not recorded Medication forgotten or left behind 	<ul style="list-style-type: none"> Seek full medical information on all participants including staff Allow for it to be updated closer to departure for activity. Identify contagious infections Check that students have appropriate medication with them, or collect in. 	<ul style="list-style-type: none"> TIC to seek medical backgrounds of students through school records, allow parents to update or add information. Collect relevant information in regard to participation in activities Distribute to supervisors. Seek medical advice if unsure. Supervisors to keep information confidential but accessible. Carry student's medication if necessary. Disclose any medical background of themselves. Participants to have current medication or inhalers with them. 	<ul style="list-style-type: none"> TIC planning and in briefing to staff identify any students who may require further supervision. Supervisors prior to activity ask or question if unsure. Actively supervise taking of medication and record on student's record where necessary. Check students have medication. 	Before and during visit	Stop Think Act Stop activity or participant. Check safety of self, others, participant. As above Apply first aid. Allow for recovery by student. Send for help if necessary. Record actions taken. Inform TIC TIC to take steps to inform caregivers and school if necessary. Enlist aid from Te Puia staff.
Behaviour/Disputes Students	Disagreements between students Bullying	Tiredness, general falling out between people	Awareness, separating groups. Stamp on any form of bullying as it only escalates	Students / staff	At the time of it happening	Changing student groups

Behaviour/Disputes Adults	Disagreements over decision making	Not listening to each other	Final decisions to be made by group leader	Teacher responsible for trip	At the time of it happening	Follow policies
Emotional Trauma, distress, embarrassment	<ul style="list-style-type: none"> • Student, staff, or supervisors having other issues at the moment, • Activity is too far out of comfort zone of student. • Lack of a lead in activity, or appropriate briefing. • Student feeling isolated, has no friends in their group. • Finding out via cell phone information that distresses them. • Feeling different due to medical treatment or condition. 	<p>TIC to set expectations and inform caregivers and supervisors and students. Adhere to code of conduct. Identify students that may appear left out or isolated early on. Make students feel comfortable with surroundings and looking forward to the next day of activities. Restrict cell phone use, or ban. Parents advised to pass information to staff not directly to student if it may upset them. Handle with respect and dignity treatment of students with medical conditions. Allow a private space if needed. Be prepared to listen to student and allow them if they wish to have a buddy for support. Goals identified and activities are adapted</p>	<p>TIC - Expectations published prior to activity, consent form to acknowledge procedures and expectations of participants. Information distributed and time allowed for clarification by supervisors. Briefing held for supervisors if required. Reinforce on day of activity in briefing to participants.</p> <p>Supervisors to acknowledge issues at early stages.</p> <p>Students informed that it is ok to seek help on someone else's behalf. That this is a form of supportive behaviour.</p>	TIC and supervisors	<p>Planning stages.</p> <p>At briefing, or information distributed. Some information will need to remain confidential and should also be destroyed appropriately post trip.</p> <p>Day of activity – reinforce expectations.</p> <p>During activity people delegated to supervise medication or treatment of particular students.</p>	<ol style="list-style-type: none"> 1. Remain Calm 2. Separate student if necessary but with a buddy for support. 3. Provide encouragement and support, allow time out, this step depends largely upon the issue you are dealing with. 4. If more serious have an additional staff member with you to take notes and act as your support person. 5. Inform relevant people. 6. Where possible return student to activity and group. 7. If crisis – look in folder.

		to meet the needs and abilities of the students.
